eliseodm@gmail.com

San Miguel de Tucumán, Tucumán,
AR

I'm a software developer learning about JS frameworks, web technologies and cross-platform development. I like to keep up to date with the latest technologies and apply best development practices. That is why I am looking for a project and a team in which I can apply everything I have learned. In my spare time I love to take photos and videos.

Experience

Frontend Developer

EIA Labs · San Miguel de Tucumán

Jun 2021 - Jun 2022

We are a group of friends and coworkers that meet in college and are passionate for the same things. The team are working with multiple technologies, mainly with a FERN stack.

- Building a PWA for medical professionals
- Tani is a comprehensive billing system for the healthcare environment.

IT Technician

Ministerio de Desarrollo Social · San Miguel de Tucumán

Apr 2020 - Mar 2022

We care for people in vulnerable situations and create employability conditions for development with equity.

- Data Analyst
- Develop Solutions

Projects

Tani · Developer, Designer and Analyst

Tani is our first major project for a client. It mainly provides an accounting and statistics solution to professionals and people in the medical environment.

- Using modern technologies such as React, Firestore and Firebase Functions

Skills

Web Development	Other Technologies
